

Equipment Showcase 2012

NEARY 555SRI — The 555SRI is a unique and powerful grinder that combines all of the latest technology and capability with the ultimate in "Ease of Use" features available.

Not only can it be run like any other single dimension grinder for very fast touch-up spin grinding tasks, but it also has the capability to properly gauge the reel to remove coning, and add a relief grind fully automatically in the same set-up. Innovative engineering combined with feedback from technicians around the world have made this machine a reality. The combinations of all these features, with a very competitive price, make this machine one that cannot be overlooked.

With concerns over rising fuel costs, landscape contractors need to become more efficient with their fuel usage. The new **JOHN DEERE ZTRAKTM PRO Z925** with Electronic Fuel Injection (EFI), can help by providing up to 25 per cent fuel savings for landscape contractors. The John Deere

Z925 EFI offers a closed loop fuel injection system that constantly monitors engine performance. Fuel injectors respond to the load on the engine with the right amount of fuel, delivering maximum fuel efficiency for the conditions. The 27-hp* engine includes an exclusive Tuff Torq® integrated transmission. The transmission, which is standard across the ZTrak PRO 900 Series, features 13cc piston style pumps and 13cc wheel motors for increased efficiency. Another series exclusive, is the cross-porting system that routes the coolest hydraulic fluid to the hydraulic pump doing the most work. The Z925 EFI offers a 54-inch or 60-inch, 7-Iron™ PRO mowing deck. For durability, the Z925 EFI, and the entire Z900 Series, provides a C-Chanel frame, and cast iron rear bumpers and front forks. Two other convenient features include the Height-of-Cut Adjustment system, and the Brake & Go™ starting system. *See our ad on page 5.*

ECHO'S NEW BRD - PAS ATTACHMENT provides all the same features as the dedicated BRD unit in a convenient, affordable attachment. Over time, flower bed edges erode and need to be refreshed. The unique 6-fingered blade with carbide tips creates the crisp beveled groove, leaving a professional manicured look every time. A high impact oversize shield keeps the debris contained within the

landscaper bed, eliminating cleanup. To ensure superior performance, the BRD attachment is powered by the new 28.1cc PAS-280, ECHO's most powerful power source. A professional-grade engine and 2-stage commercial-grade air filter increases engine life, and engine vibration reduction mount and rubber over-mold handles add operator comfort. The PAS-280 comes with ECHO's Tool-less coupler for easy change-out of attachments. *See our ad on page 9.*
